We have just read the book of lamentation, according to Greeley, and felt somewhat consoled by the sufferings of the man feel like giving up the President as a radi-Tribune, and see how far Abraham Lincoln falls below the level of the saints.

Greeley goes over the history of the war; disparages rather the achievements of our armies, and exaggerates the strength and successes of the Confederates, and feels bad over the picture he draws, Something more is wanted. Of course that something is negro stealing, negro arming, &c.

Congress has passed a confiscation bill the war. But what has the Administration rose. Every struggle since the Christian done in pursuance of that bill? Nothing, nothing-alas! worse than nothing. Abraham Lincoln has not said a word about the new policy in his order.

To be sure, Sambo may be set at manual orders of the same tenor, unchanged and ley's head were waters, and his eyes founhas lost faith in white men. The twentythree millious of white men can't do the ground, and gives out the prophecy to cured with hard words.

cised about the despotic rules of war, and the threatened confiscations and emancipation. We want to know what they will do to stop all these things promptly. They cas do it to-day, if they will. For all the blood shed they and their friends are re sponsible, and for all the unconstitutional and offensive acts of the last Congress they are guilty. If these things go on, it will be their fault. All they have to do is to repudiate this rebellion, obey the laws of the United States, and take their place in the Union, which they held only a year or two ago. They want peace; so they say. They were a peace party. All the while, however, they wanted the United States to lay down their arms and submit to the rebellion. At that price they would purchase peace. They have never exhorted the rebels to keep the peace.

We say the process to stop all these ca lamities is simple and easy. The Secesh can do it; and if they do not do it, they are accountable. We ask them to make no sacrifice of principle, not to give up an item of their liberty or property, but to save all. They submit to a Government that their fathers made for them and submitted to

Oh, no; they can't do that. Very well. then, let them not complain. They have tinue to manage that question as we had got up this rebellion, involved the whole country in the calamities of war, and they, of all men, have the least right to complain. If they can't make the cheap sacrifice of self-conceit and party resentment, to rid the country of the calamities of war, they had as well dry up and trouble us no more with their complaints. They are the guilty authors of all the blood and suffering of the country. To their charge impartial history will set down the account; and tinent together? If the slavery question it is their fault if the evils remain longer.

Letter from Jackson's Purchase.

JACKSON'S PURCHASE, KY.,

July 20, 1862. Editors Bemocrat-Gentlemen: It is well known that this part of Kentucky has, from the early inception of Secession, been strongly in favor of breaking up and destroying this Government. Aco of forcing our seven counties lato the rebellion regardless of the will of a large majority of the people of Kentucky. And at the time the Federal troops occupied l'aducah, they were then concocting measures to have us forced into this infamous and wicked rebellion. Many of the outrages committed by the rebels upon Union men and their property have been published; vet, sirs, there are yet hundreds of acts committed by those fiends in human form, under the name of Soutohrn Rights, that would put the savage himselt to blush. It is not, however, of those crimes that I

now, through the patriotic columns of your devoted Union paper, wish to speak; but to ask of those who now control and hold our destiny in their hands that, after traitors who inaugurated the wicked and destructive policy of Secessien within our once happy and peaceful State, and brought upon us leath and destruction, robbed us of our friends, our rights, our homes, our property, and, indeed, for a while, the Constituion of our country, and now that the tide and fortunes of war are upon our side, and ur government calling upon her erring children to come back to the Constitution and star-spangled banner, bequeathed to us by the patriots of the Revolution, and while ed, robbed, and driven from their homes, forgetting all their wrongs, and only look at the kind and forgiving policy of the Government, stand before the people to-day, with the Constitution of our fathers in one hand, and the olive branch of peace in the other, wooing and beseeching the misguided to come back and rally around the altar of our country as the only place for shelter and protection. And when men, whose hearts are steeped and black with treason, and who yet stand off, and have no word to speak in favor of this Government, but are all the time saying and doing all they can to mislead the ignorant, who would gladly ome back to their allegiance and love for heir country, but for the influence of base, bad men, who want office, and want to control the political affairs of this part of Kentucky, in place of being permitted to run for office, such men should not be suffered to remain in this county; and, knowing the sentiments of General Boyle upon this subject, Union men are determined to report civil wars, other nations have been made all men who still persist in their contempt desolate, but it was always to secure the for this Government; neither will they stop mitted, and are yet committing-of such we

now wish to speak.
Dr. Irvin, of Marshall county, was at Mayfield, on the 3d of July, and cursed and said: "God damn this Government;" that "all his sympathics were with the South;" and when told by a Union mau that men enter-

taining such sentiments would have to leave Kentucky by order of General Boyle, he said, "God damn General Boyle;" that he ared nothing for him, and would say and do what he pleased, regardless of the power of General Boyle. The next day, 4th of July, the Union mer had a celebration, and this man, Dr. Irvin mixed with the ladies and cursed the 4th o July and the Union speakers. Hels a very bad man, and if Gen. Boyle will have him carried to Camp Chase it will do very much towards restoring peace in Marshall In the county of Hickman Judge Boone has appointed two-thirds of the offi-cers to hold the election belonging to his own traitorous gang, in violation of the act of the Legislature of Kentucky. Judge Williams, who is a caudidate for Judge of the Appellate Court, spoke at Clinton lust Monday, and from the fact that he found pan to enlightened Europe; that they the traitors very bitter he thought it necessary to speak plainly and call traitors by their right names, and spoke in favor of the Dovernment, and for that this traitor County Judge declared that Judge Williams should have been mobbed from Clinton and not been permitted to make a speech in which treason was denounced. This same traitor ludge, who has perjured himself and betrayed his native State of Kentucky, again a candidate for re-election. He has a brother who, with himself, would make a nice pair of traitors to send to Camp Chase, who was also a Judge in Green county, but resigned his office as County Judge to serve the disunion party in the Kentucky Leglslature. It was into his hands that arch-traitor, Tighlman, placed the \$35,000 worth of arms, to be held secure until a convenient time for them to be stolen: that Judge A. R. Boone did give his aid in having the guns taken and placed in the hands of the enemies of his State every Union man in Graves county believes, and the facts bear them out in their belief, for when an attempt had been made to steal the guns, Boone knew it, as also the Union men, who prevented lt. One hundred Union men came to Mayfield, and tendered their services to Judge Boon, to guard the gune, but he indignantly refused to let them have any hand in the matter, but swore that his State Guard could and would keep the guns, and when the Uuion men intimated that they would be about, Boone threatened them that if they did not go home, large companies of Sccesh would come to town and drive the Union men off. A few nights afterwards the guns were taken. Boone had two men guarding them. and ordered them to give up without firing

> conduct is worse than that of Tighlman, for he was the dirty tool of Tighlman, to do all his dirty work, and stands next to Tighlman in infamy, in this part of Kentucky, and should be forthwith sent to keep his old friend company. After Kentucky was invaded he left Frankfort, and at Louisville, got a pass from General Anderson by again taking the oath to return home, and while at Paducah he swore that as soon as he reached home he would advocate the Union but no sooner did he get to Mayfield and so well did he please his traitor frlends that they made him their representative the Union-that Union whose benign influto Russellville, Ky., to the bogus conven-tion, to assist in bringing war and ruin upon Kentucky, after which he returned at home and is yet sowing the seeds of dis-sention among the people. The old woman was le off to get home the best way she could. The old man was taken off, and no tidings canbe had of him. His old, woman is at hope working for her living, while her Secon neighbors are going at large, and have their negroes and property. [From the Bulletin of the 21th and 25th.] ORDER No. 1 .- The exodus of citizens nder the effect of Order No. 1 still continues. On Monday last seventy-four pernits to go South were issued by the Pro Marshal, and on Tuesday one hundred and twenty-four were granted.

Per contra, however, on Monday on undred and seventy-nine took the oath of allegiance, and on Tuesday the number of natis given was two haidred and thirty.

These figures probably exhibit in a fair degree the real sentiments of the people of

Memphis in regard to the rebellion. A large proportion of the people would oubtless prefer to remain neutral, so long Inion men who have been abused, insult- as they could do so in entire safety and comfort; but when compelled to make a permanent choice between the two contending parties, there are but few who will not oose to identify themselves with the National Government rather than longer risk their destinies with the sinking ship of rebellion.

WEST TENNESSEE .- We have advices from Jackson, Tennessee, Trenton and Humboldt up to Tuesday night. Everything was quiet each point. Cotton wascoming in plentifully, and meeting with ready high prices. There were several thousand bales at each point, and the receipts were almost equal to a thousand bales per dsy. CONFEDS OPPOSITE COMMBUS .- Thero have been rumors affoat for soveral days past to the effect that there was a considerable Confederate force up the river, and would cut off communication. The foundation for this rumor is found in the fact that about fifteen Confederate cavalry were camped in houses on the Missouri side opposite Columbus on Tuesday night. Wednesday morning the commandant at Columbus learned the fact, and started a squad

the Confederates had been captured. GUERRILLAS AL BROWNSVILLE, - At Brownsville, Tenn, last Saturday, there were eloven guerrillas, not Confederate soldlers, who had been engaged in the delightful pursuit of burning cotton. They would go to the premises of persons who had sold otton, and compel the servants and former wuers to pull it out, when they would ourn it in their presence.

It was not a little remarkable that all the otton these guerrillas burned was cotton hat had been sold by the farmers to second hands, thus enabling the people to get value received for it, and inflicting a total ss upon the purchaser.

This guerrilla party committed all sorts depredations in the vicinity of Browns rille up to Saturday night, when a large avalry force was sent in pursuit, and, oubtless, ere this, the whole party has been captured.

TERRIBLE EXPLOSION AT HAZARD'S POW-DER MILLS-TEN PERSONS KILLED .- Hart ord, July 24 .- At three o'clock yesterday afternoon, an explosion occurred at Hazard's Powder Mill, at Hazardsville, by which teu persons were killed. Five buildings blown up, and many others nearly rnined or totally destroyed by the concus-sion. The origin of this calamity is not known, and no one is living to explain it. At three o'clock seven men were at work the press mill. Their names are Arthur Blake, Thomas Newell, Patrick Fallon, William Leland, Edward Grammond, Harry Clark, and Leno Monseur. Pat Carney had just backed a mulc team to the door. There was a flash brighter than lightning, and a roar louder than thunder, and no traces have since been discovered of the building or one of the men who were in or around Faithful search has been made, but all

ithout success. In the cracker house, several rods disuse caused the blowing up of the cracker a heavy stone upon it.

The cartridge factory was about oneuarter of a mile from the other buildings. This side was blown off, the roof lifted and displaced, and the inmates terribly frightened. In the struggle to get out of the apparently falling huilding, many were bruised and scratched; but Miss Celia Smith, of Pittsburg, Ponn, was struck by some flying timbers upon the skull. Her skull was crushed so that her brains oozed out, and she could not possibly live.

Of the dead men, all but one leave de pendent families. The pecuniary loss is perhaps \$10,000. It was said that about ten tons of powder exploded in all the mills. No building within a mile escaped the effect. The armory and depot at Springfield were shaken, and windows in Thompsonville, four miles distant, were broken.

Some Further Particulars of the Escape of the Arkansas.

(From the Memphia Bulletin.) In our account of the escape of the gun at Arkansas, we unwittingly fell into two errors, from being misinformed in reference to the matter.
From Lieutenant W. B. Russell, command

ng the ram Lancaster, and Mr. Sylvester ss, filot of the same, we learn some addlonal particulars of the affair. It was the ram Queen of the West and not the Lancaster which accompanied the

gunboats in the reconnoissance which first discovered the Arkausas. The Queen had a sufficient amount of steam to have made an attack, but for

mud drum, ripping it open for a length of a foot and a half. In an instant the whole interior was filled with boiling water and steam. The first engineer, Mr. John Wybrand, was standing at the instant of the accident near an open door leading to the outside. He instantly sprang through late the water,

and escaped with some slight scalds. The second engineer, Mr. John Goshen, was unfortunately so far away that before he could reach the door he had become completely enveloped in the scalding steam. At last he succeeded in groping his way to the outside, and, jumping into the water, he struck out for the shore.

It was just at this time that the Arkansas was nearly opposite, passing the Lancaster, which was floating with the current. Goshen, on his way to the passed close to her, and, grasping her guard,

attempted to hold on by it. As he did so, a man was distinctly seen to lean over from one of the Arkansas' ports, put a pistol to the head of the drowning man and fire. Goshen threw up his arms, fell back into the water and disappeared.

John Dowell, cook of the Lancaster, was everely scalded by the steam, and while lying in the caboose a shell came through the side and took off both his legs. He died almost immediately. Three firemen, names unknown, either

umped or were blown overboard at the ime of the explosion, and have not been John Wybrand, first engineer, Sylvester Doss, pilot, and several contrabands who were on board, were all more or less scald-

Great credit is due to the officers of this boat for the daring with which they pre-pared to attack so formidable an autagonist, and for the cool fortitude which they afterwards displayed in the trying situation in

which they were placed. The United States Navv.

The N. Y. Times gives a lengthy description of the U.S. Navy as at present afloat,

C., for several months, and who arrived here on Saturday, having been unconditionally released, states that for ten days after the battle in front of Richmond 1,000 rebel troops passed through that town daily on their way to Richmond, and more were on the way. His window over-looked the railroad and depot, and gave him a good opportunity to ascertain what was going on there. The troops came from James Island and Eastern Georgia.

Among other facts, the Doctor ascertained that eleven thousand troops were at Charlottsville, waiting transportation to Rich-mond, and that thirty thousand conscripts had been raised in each of the States Tennessee and Georgia since the 9th of July, and a proportionate number in the other extreme Southern States. He heard the Adjutant of Colonel Goodwin, commands the post of Salisbury, who had just come from Richmond, state that the Adjutant of General Hill, told him that the rebels had one hundred and seventy-three thousand troops engaged in the battle of the seven days.

He was accompanied by Dr. Stone, was taken prisoner at Rull Run, and who corroborates the statement so far as relates to the the movements of troops. On their way to Richmond they passed long trains of empty cars on their way South.

If their statements are true, and there is

very reason to belive they are, it shows the rebels are staking their all in this State by oncentrating within Its border an overwhelming force.

The boats to-day brought down 494 rounded from Richmond, leaving about 700 yet to come.

Mr. Lindsay was pressed to withdraw his motion, but felt it his duty to proceed. He argued strongly in favor of it, as did Lord Vane Tempest, Whitside, and Gregory. Mr. Taylor and Lord Palmerston spoke against it. The latter carnestly advised that the question be left to the government. In the course of his speech, he treated the issue of the war as a foregone conclusion,

saying that the only satisfactory terminabates in Parliament. He contended that the acknowledgment of England would give the North no of offense; but thought the present position of the contest would not justify the recog-nition of Southern independence. He again

appealed to Lindsay to withdraw his moion, which was finally done. The Times says that every man can see that the time draws near when the Government must give its opinion. If McClellan is proved incapable of resuming the offensive, the propriety of treating the Confederates as Independent may be justly discussed in the Cabinet.

HEADQUARTERS ARMY OF THE ORIO, In Camp, near Florence, Ala., June 24. GENTRAL ORDER, No. 26.—There are 14,000 officers and soldiers absent from their duty with the various divisions of this army Some of them have gone off without any authori-ty, others with the permission of officers not anthorized to grant it. In general, sickness is given as the cause of absence, but in very many cases that cause has notoy ceased to exist, and men remain drawing the same pay as their comrades who are faithfully performing their duty. To correct this abuse it is ordered—

1. All officers and soldiers who are absent without direct anthority from these Headquarters, the period for which has not expired, will, on or before the 10th of July, proximo, join their companies or regiments wherever they may be. If ignorant of their locality, they will report to the command-ing officer at Lonisville or Nashville, by whom they will be directed to their regiments, or put on such light duty as they may be able to perform, if they are not entirely fit for active service; and these will be promptly reported to their regimental com nanders by the officer so assigning them.

The cases of those who fail to join as above required, will be disposed of as fol-

2. If any absent officer or soldier, in consequence of sickness or wounds, is absolutely unable to report for duty as above required, he will forward by mail the "The Assistant Adjutant General, District of the Ohio, Nashville Tennessee," a Certificate of Disability, according to the following form: CERTIFICATE OF DISABILITY.

I declare on oath, that I have carefully

examined of Captain
iment of Reg. this place and under treatment by me, and find him incapable of performing the duties of a soldier for the following reasons: Here state all the facts known concerning the disease or wound, or cause of disabil-ity; the time, place, manner, and all the circumstances under which the injury occurred or disease originated; the duty or situation of the officer or soldier at the time the injury was received or disease contracted; and whatever facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circum stances attending it.]
Place: (Signed:)

Date: Surgeon [or Physician]. Sworm to and subscribed before This certificate must be subscribed and sworn to by a Surgeon or private Physician in good standing, and known as such by the magistrate or other officer by whom the oath is administered; and on it a discharge will be ordered from these Head-quarters, or the case otherwise disposed of according to the circumstances.

8. The death of any officer or soldier

which has occurred since the 1st of January last, while he was absent from his regiment or company, and which has not been reported by the Surgeon of the Hospital in which the death occurred, or by the friends of the deceased if not in Hospital, will be immediately reported by the Surgeon of the Hospital, or by the affidavit of friends, to "The Assistant Adjutant General, District of the Ohio, Nashville," setting forth the date of decease and other material circum-

4. All absent officers and soldiers who do not join their companies and regiments, or are not satisfactorily accounted for as above by the 10th day of July next, will be reported on their muster roll as deserters, dating from the time they may have been absent without authority. By act of Congress every deserter for-

feits all claim on the government for pay and allowances, besides being liable to arrest and trial by Court Martial. Any person who apprchends and returns a deserter to the commanding officer of a military post, is entitled to a reward of five dollars. By command of Major General Buel. JAMES B. FRY.

THESE SEWING MACHINES COMBINE THE

family use than any other. They are not liable to get
out of order, are exceedingly simple, and are made exout of order, are axceedingly simple, and are made expressly for real practical utility; they do every variet of sewing, from the finest woven fissue to the halvies woolen goods, both tailoring and fine leather work Any person may learn to operate them. The great difficulty with all other old-style Machine is too much complication, requiring so much constan adjustment, and such an amount of mechanical skil and ingennity to use them to advantage, as to rende them of little comparative value.

But the fewing Machines manufactured by Greenman & True are not inable to these objections, as an reason on even a mount's standardow, will readily discover.
